## DATA TECHNOLOGY

### **M250** Hand-held terminal with Windows CE\* 5.0 operating system

#### **Robust, powerful, ergonomic**

The robust hand-held terminal M250 with integrated barcode scanner is predestinated through its excellent stability and simultaneous weight reduction for your warehousing application requirements.

#### **Efficient and high-contrast**

The well-proportioned design and the advantageous lay-out of the large keys, as well as the large, rich in contrast TFT colour display with touch screen ensure uncomplicated operation as well as safe data acquisition.

#### **Fast and flexible**

Synchronise your material and data flow by online communication between mobile computers and the network of your ERP or warehouse management system. ACD terminals communicate with up to 54Mbit/sec in modern WLAN networks according to IEEE 802.11 a/b/g or via a GSM/GPRS mobile network. This enables you to perform real time stock management, as well as flexibility in service and a permanent monitoring.

#### **M250**
